

1st Grade Mission 6 Notes

For word problems, be sure to use the **RDW** strategy.

Read the problem and underline what's important.

Sophie found 12 ladybugs.

Lucas found 4 fewer ladybugs than Sophie.

How many ladybugs did Lucas find?

Draw a model to represent the problem using a letter to represent the unknown. Solve for the unknown answer.

Write your answer in a complete sentence.

Lucas found 8 ladybugs.

Tape Diagram

Tape Diagram to show Comparison

When you have the 2 parts, you **ADD** to find the total.

When you have the total and 1 part, you **SUBTRACT** to find the missing part.

The number 78 is made up of two numbers: 70 and 8.

tens	ones
7	8

7 tens and 8 ones make 78.
70 more than 8 is 78.
8 more than 70 is 78.

$$70 + 8 = 78$$

$$8 + 70 = 78$$

$$78 = 70 + 8$$

$$78 = 8 + 70$$

7 Tens

8 ones

Place Value Chart

1 more than 78 is 79.

1 less than 78 is 77.

tens	ones		tens	ones
7	8	$\xrightarrow{+1}$	7	9

tens	ones		tens	ones
7	8	$\xrightarrow{-1}$	7	7

10 more than 78 is 88.

10 less than 78 is 68.

tens	ones		tens	ones
7	8	$\xrightarrow{+10}$	8	8

tens	ones		tens	ones
7	8	$\xrightarrow{-10}$	6	8

Big Numbers

tens	ones
12	0

120

$$51 + 40 = 91$$

Add Tens First Strategy

$$62 + 30$$

Break apart 62 into tens and ones

$$60 + 30 = 90$$

Add the tens

$$90 + 2 = 92$$

Add the tens total with the ones

Make the Next Ten Strategy

$$66 + 34 = 100$$

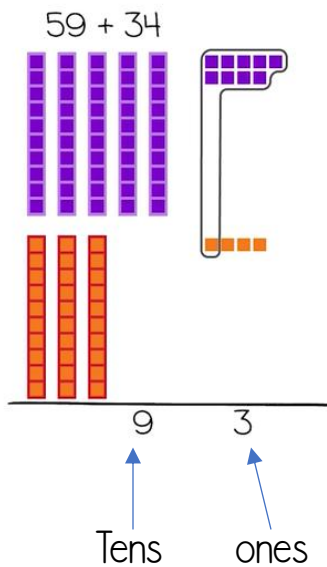

Break down into tens and ones (How many ones do I need to get to the next ten)

$$66 + 4 = 70$$

Add to get to the next ten

$$70 + 30 = 100$$

Add the two tens together

Vertical Addition

$$39 + 26$$

tens	ones
3	9
+ 2	6
1	
6	5

COIN	VALUE	PICTURE
Penny	1 cent (1¢)	
Nickel	5 cents (5¢)	
Dime	10 cents (10¢)	
Quarter	25 cents (25¢)	

5 pennies = 1 nickel
 2 nickels = 1 dime
 10 pennies = 1 dime
 5 nickels = 1 quarter
 25 pennies = 1 quarter

When counting **nickels**, we count by 5's.

5, 10, 15, 20, 25, 30, 35, 40, 45, 50, 55, 60, 65, 70, 75, 80, 85, 90, 95, 100

When counting **dimes**, we count by 10's.

10, 20, 30, 40, 50, 60, 70, 80, 90, 100

Solving Comparing word problems with Tape Diagrams

Fewer= less than (least)

More= greater than (most)

1 Maya went down the slide 15 times. She went down 3 more times than Braydon.
 How many times did Braydon go down the slide?

B ? = 12

M ? = 12 | 3

W $\frac{12}{15} + \frac{3}{3} = \frac{15}{3} = 12$

Braydon went down the slide 12 times.

   Sophie listened to 13 songs on the radio. Sophie listened to 4 fewer songs than Lucas. How many songs did Lucas listen to?

Sophie 13

Lucas 13 | 4

$13 + 4 = 17$ Lucas listened to **17** songs.
