Outcomes:

I can locate various communities and cities in Louisiana using cardinal and intermediate directions.

I can engage effectively in collaborative discussions.

*maintain eye contact*
A compass rose can be found on maps and shows cardinal and intermediate directions.
Let's practice labeling cardinal and intermediate directions on the compass rose below.

You will draw a compass under the map on page 4.
We will now use the map on page 4 to locate Louisiana's capital.

Circle Baton Rouge on your map.
Use Baton Rouge as your starting point.

What direction would you need to travel to get to:

* Shreveport
* Morgan City
* New Orleans
We will now use the maps in your workbook to locate places using all directions.

Is Monroe located north or east of Alexandria?
We will now use the maps in your workbook to locate places using all directions.

What direction would you travel to visit the Gulf of Mexico?
We will now practice using cardinal and intermediate directions on different types of maps.
Let's place these items on this grid map!

- School
- My House
- Cattle
- Forest

The school is located at C-1
My house is located at B-3
The field of cattle is located at D-4
The forest is located at E-2

Using the grid, which direction would you travel to get home from school?
If you are in Baton Rouge, which direction do you need to travel to get to Shreveport?

A) NE  
B) SE  
C) SW  
D) NW
