### Important Dates:

- February 1st & 2nd - Parent/Teacher Conferences

## English Language Arts

This week we will wrap up reading *Because of Winn-Dixie*. We will have a **Section 7 quiz on Monday**. Then we will begin working on our Culminating Task on Tuesday and finish it on **Friday**. The culminating task is writing with multiple choice questions attached for a **summative grade**. This will conclude unit 2. In this unit, students will show understanding of the lessons Opal learns through her interactions with other characters throughout the story. To officially close out this Unit and book, classes will have a *Because of Winn Dixie* Party. Students will compare the book and movie. No homework spiral this week.

## Social Studies/Flex Group Time

Flex Grouping will resume in the next few weeks. We are analyzing data carefully to offer students a conducive learning environment that caters to their individual needs. In addition, we're thrilled to announce the commencement of our new Social Studies curriculum this week. Unit one is focused on "The Founding of the United States of America". This week we will be covering chapter one. Please review the "Letter to Family" found in your child's binder. Flex group will take place on Monday, Tuesday, and Thursday. Social Studies will be taught on Wednesday and Friday.

## Math

This week in math, we will continue Module 4: Multiplication and Area. We will complete lessons 7-12, which focus on using side lengths to find the area. Students will take a **Topic B Quiz on Wednesday** which covers lessons 6-9. **Students should also complete the page numbers listed below for homework each night.**

## Science

This week's science class will continue with **Module 3: Traits**. We will be working on Lessons 6-8. Our main focus will be on the question: "*How do individuals change over time?*" During these lessons, we will be exploring the processes that an individual goes through during their lives from birth to death. All class assignments can be taken for a grade. To prepare for all upcoming assessments, students are encouraged to review the Learning Log every night as part of their homework routine. **As a fun activity, students are requested to bring in a baby picture to help deepen their understanding of traits in organisms. The pictures will be returned at the end of the module.**
