# Accessing Google

## ACCESSING GOOGLE CLASSROOM FROM A MOBILE DEVICE

Installing these apps and enabling notifications will allow students to be notified when teachers post assignments or comments in Google Classroom. This will help students keep in touch with their teachers while not physically at school.

**1.** In the App Store or Google Play, download Google Classroom, Google Drive, Google Docs, Google Sheets, Google Meet, and Google Slides.

**2.** When you open Google Classroom for the first time, click "Get Started."

**3.** Choose which account you want to use to access Classroom. If you are accessing an account as a student, you must use the student's Google account. If you are typing in the email address, make sure to include @stcharles.k12.la.us.

**4.** You will receive a pop-up asking if you would like to receive notifications. It is recommended that you choose "Allow." This option can be changed in the app. Go to the three horizontal lines in the upper left. Choose "Settings," then "Notifications."

**5.** On the bottom right of the next screen, click on the plus.

**6.** Click "Join class."

**7.** Enter the code provided by your child's teacher.
