Dear Student,

If you have chosen to conduct volunteer hours at an establishment, please know that you are acting as an agent of Destrehan High School whatever the location may be. Your product must also include an additional component – a venue in which you share your learning experiences. You must keep a written personal journal that reflects your volunteer journey, and then present your learning by leading a discussion for a class/club/community assembly. At the end of your discussion, you must receive written feedback from your audience.

Please complete the information below, secure the required signatures, and submit it with your Letter of Intent.
